## Taak Resin

*Tacryl TP-40* is a hard thermoplastic pure acrylic resin which is specially designed for printing on plastic parts.

TYPICAL PROPERTIES	• Appeara • Type	•	Colorless transparent liquid Thermoplastic acrylic resins solution	
	<ul> <li>Solvent</li> </ul>	Ethyl acetate		
		•		
	<ul> <li>Solubility</li> </ul>		natic hydrocarbonc	
			natic hydrocarbons	
		<ul> <li>Esters &amp; Ketc</li> <li>Some of the get</li> </ul>		
		Insoluble in:	giycorethers	
		<ul> <li>Alcohols</li> </ul>		
			rocarbons	
			<ul> <li>Aliphatic hydrocarbons</li> </ul>	
	Color	Hazen(APHA)(ASTM D-1209)	<50	
		Gardner(ASTM D-1544)	<1	
	<ul> <li>Solids(%)</li> </ul>	(ASTM D-1259)	45±1	
		ie(mg KOH/g)(ASTM D-1639)	<10	
	<ul> <li>Tg(°C)</li> </ul>		+63	
		at 25°C (cP)(ASTM D-562)	2000-5000	
		at 25°C(g/ml)(ASTM D-1475)	0.99	
	•	int(°C)(ASTM D-93)	24	
FILM PROPERTIES	<ul><li>plastics</li><li>Good ha</li></ul>	drying and excellent adhes rdness and scratch resistance		
		Good humidity and heat resistance Hydro carbonic and alcoholic solvent resistance		
RECOMMENDATIONS FOR END-USE	• General	applicants specially proper	plastic coatings
